

REMARKS

In the Office Action dated May 25, 2004, the Examiner states that claims 1-10 are allowed, and claims 11 and 12 are objected to or rejected for various reasons. Preliminarily, Applicants note that claims 11 and 12 have been canceled; leaving claims 1-10 pending (10 total claims, 1 independent claim). Accordingly, reconsideration of the application in light of this response, the canceled claims, and the following remarks is respectfully requested.

The Examiner objects to Applicant's drawings as failing to comply with 37 CFR 1.83(a) because the Examiner contends they fail to include every feature of the invention specified in the claims. As noted above, Applicants have canceled claim 12, obviating the objection, and respectfully request withdrawal of the objection.

The Examiner next objects to claim 11 for stating, "the second outlet plug" in line 5. Furthermore, the Examiner recommends amending the spelling of, "movably" to "moveably" in line 5 of claim 11. Again, Applicants have canceled claim 11, obviating the objection, and thus respectfully request withdrawal of the objection.

The Examiner next objects to the disclosure because of informalities in the specification. Specifically, the Examiner objects to various reference characters. In compliance with 37 CFR 1.121(b), Applicants submit herewith replacement paragraphs obviating any such objections and thus respectfully requests their withdrawal.

Finally, the Examiner variously objects to or rejects claims 11-12 as not adequately supported by the specification under 37 C.F.R. 1.75(d)(1) and 35 U.S.C. §112, first paragraph stating the specification fails to provide a proper antecedent basis for the claimed subject matter and/or that the specification does not enable any person skilled in the art to which it pertains. Though not necessarily in agreement with the foregoing, Applicants have canceled claims 11 and 12, obviating any such objections or rejections, and respectfully request withdrawal of the same.

CONCLUSION

In view of the above remarks and amendments, Applicants respectfully submit that all of the currently pending claims 1-10 (10 total claims, 1 independent claim) properly set forth that which Applicants regard as their invention and are allowable over the cited prior art.

Accordingly, Applicants respectfully request reconsideration and allowance of all pending claims. The Examiner is invited to telephone the undersigned at (602) 382-6337 at the Examiner's convenience, if that would help further prosecution of the subject Application. Applicants authorize and respectfully request that any fees due be charged to Deposit Account No. 19-2814, for which purpose a duplicate copy of this sheet is attached. **This statement does NOT authorize charge of the issue fee.**

Respectfully submitted,
